

Irrigation Rebate Application

Eligibility: This program offers rebates for Littleton Water Department (LWD) residential customers who install a qualified smart irrigation controller. New controller must be installed on fully operational, in-ground irrigation system with a minimum of four valves/zones. There is a limit of one weather-based irrigation controller rebate per customer. Customers of LWD are eligible for rebates subject to the availability of funds from LWD. LWD reserves the right to change any portion of this program or end this program at any time without notice.

Qualifying products: Please see Appendix I for a full list of qualifying smart irrigation controllers. If you believe your product is eligible but not listed, please contact us.

Rebate Amounts & Payments: Rebates will be for \$50 per installation. Rebate applications will be processed as they are received. Rebates will be issued in the form of a bill credit.

What is a Smart Irrigation Controller? A smart irrigation controller, which acts like a thermostat for your sprinkler system telling it when to turn on and off, uses local weather and landscape conditions to tailor watering schedules to actual conditions on the site. Instead of irrigating using a controller with a clock and a preset schedule, smart irrigation controllers allow watering schedules to better match water needs. With proper installation, programming, and maintenance, homeowners can use smart irrigation controllers instead of standard clock-timer controllers on their existing systems, and no longer worry about wasted water.

Verification: A copy of original sales receipt indicating make, model, purchase date and price. All must accompany rebate application. **Incomplete applications will be returned.**

Disclaimer: LWD and its designated representative reserves the right to inspect or otherwise verify new installation at the location indicated on application. LWD does not guarantee the implementation of energy efficiency measures or uses of the equipment purchased and/or installed under this program will reduce energy usage or provide cost savings. LWD makes no warranties, expressed or implied, with respect to any equipment purchased and/or installed including but not limited to, any warranty of merchantability of fitness for purpose. In no event shall LWD be liable for any incidental or consequential damages.

Additional Information: Additional information on LELWD's energy efficiency programs can be obtained by calling 978-540-2222 or by visiting www.lelwd.com/greenrewards
